

VENTILATION SYSTEM HVAC (HOT AIR VENTILATION SYSTEM)

BENEFITS

Keep your workforce cool and comfortable
Air Ventilation System

- ▶ Controls impurities.
- ▶ Creates a relaxed environment.
- ▶ Regulates health and safety levels.

HEATING VENTILATION AND AIR CONDITIONING SYSTEM

- ▶ Is Reliable and versatile.
- ▶ Warms up or cools down an ample space.
- ▶ Helps with cost-cutting.

DUCTLESS AIR CONDITIONING

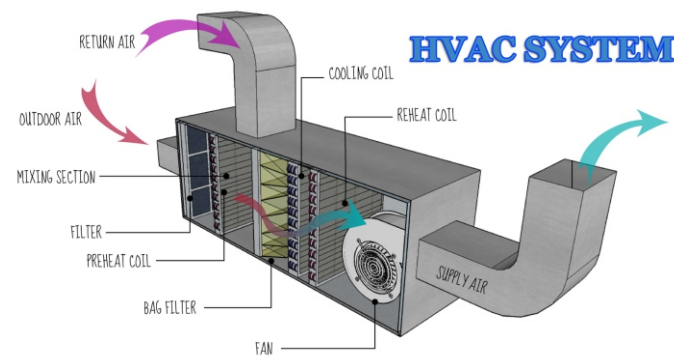

- ▶ Increases energy efficiency.
- ▶ Improves indoor air quality.
- ▶ Saves space.

Application

Quality services and unbeatable prices for all Programming the
temperature for organizations, including but not limited to

- ▶ Manufacturing
- ▶ Banking and Finance
- ▶ Medical
- ▶ Government
- ▶ Public Sector Units

CLEAN ROOMS

Clean room pre engineered modular system offers a cost effective alternative to the conventional construction at the same time it delivers durable and high quality clean room performance.

FEATURES

- ▶ Removable & Re-Locatable .
- ▶ Pre-Fabricated cut out for utilities .
- ▶ Fast and easy instalation .
- ▶ Totally flush concept.

AIR CONDITIONER / CHILLER

- ▶ Wiptech has comprehensive range a chillers is poised to power up various mechanical cooling process application across to different industries. Our Process chillers, centrifugal chillers, Scroll chillers and Screw chillers are a testament to our unmatched engineering capability.

FEATURES

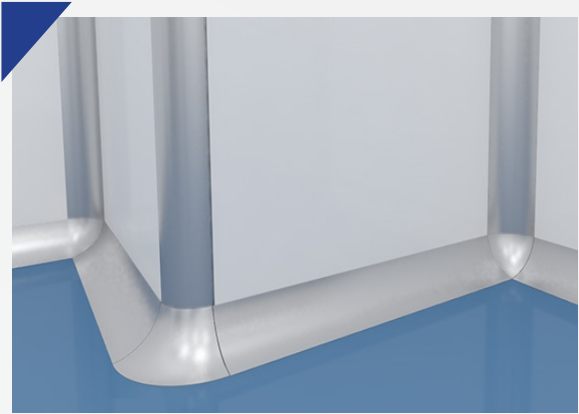

- ▶ Wide Range
- ▶ Longer Life
- ▶ Large Tonnage Capabilities
- ▶ Rapid Cooling Mode

ACCESORIES

CORNER COVING

- ▶ Coving Material Aluminum Powder Coated
- ▶ Colour As Per Customer Need

RETURN AIR GRILL

- ▶ Made From GI & SS (As Per Requirement)
- ▶ Perfectly Flush-Fitting With The Wall

GLASS VIEW PANEL

- ▶ Heat Resistant / 5 MM Thick & Many More
- ▶ Surface Treatment Coated
